Life amplified

MAKE THE
NEXT MOVE

■ AE series high-tech driven design

■ ABS weather-resistant panel

■ 31L extra large storage space

■ BSD Automotive-grade BSD

■ Dual-arm fence frame

■ Front and rear disc brake with opposed calipers

1 Range (WMTC)

63km

2 Rated power

1.6kW

3 Peak power

3kW

4 Max speed

65km/h

DESIGN

Aesthetics

- Follow the design DNA of the AE series and maintain the consistent sci-fi style.
- The entire vehicle uses highly weather-resistant ABS materials. Compared with the general PP materials, the surface wear resistance is increased by 50%. Lifespan and fade resistance increased by 100%.

Lights

- V-shaped position lights: continue the AE family design language and integrate with the turn signals.
- Embedded optical core headlights: high beam 30000cd, low beam 3100cd (competitive products 27850cd, low beam 3313cd)
- UFO taillight, X rear turn lights and flowing ambient light enhance the sense of fashion and high-tech while creating riding pleasure.

PERFORMANCE AND HANDLING

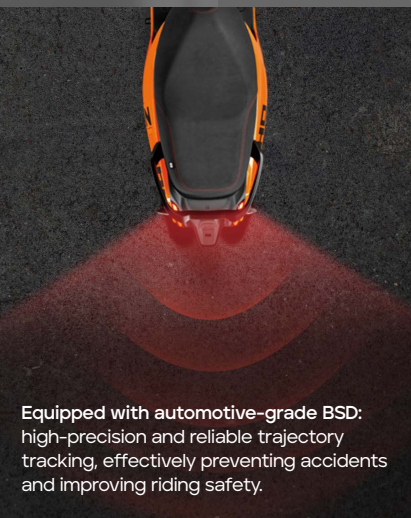

Dual-arm fence frame: made of automotive-grade materials, manufactured, tested and tuned to motorcycle-grade standards.

6,000km enhanced road durability test
500,000 times strength test
Motorcycle-grade robot welding and electrophoresis process

High-performance hub motor focusing on sports experience.

Rated power: 1.6kW
Peak power: 3kW
Max speed: 45km/h (without speed limit)

Equipped with automotive-grade BSD: high-precision and reliable trajectory tracking, effectively preventing accidents and improving riding safety.

Tires: front 80/90-12 and rear 100/80-12 effectively improve riding stability.

300cc motorcycle-grade true ABS+eTCS: ABS has undergone multiple rounds of analysis and testing to better adapt to different road conditions. Used in conjunction with eTCS, it provides double safety and enhances riding safety.

Reliable brake and suspension: 3.5mm low-profile front and rear disc brakes, combine with front hydraulic and rear five-level adjustable suspensions, bring excellent riding experience.

PRACTICALITY

- 405mmx500mm comfortable pedal space.
- Optimize the space structure and place the battery under the pedal to achieve a large 31L seat bucket space, which can accommodate a full-face helmet, raincoat and charger at the same time.
- Standard 18W USB and TYPE C plugs for added convenience.

INTELLIGENCE

- Full-scenario intelligent functions are in place: side support sensor, hill holding system, adjustable energy recovery, cruise control, etc.
- 5 unlock methods: Keyless 2.0, NFC, digital key, password and mechanical key.
- More intelligent experience via ZEEHO RIDE:
 - View vehicle location and riding data in real time
 - Anti-theft protection
 - OTA
 - Easy Ride!

BASIC DATA

Dimensions	1910mm×743mm×1154mm
Wheel base	1340mm
Seat height	760mm
Ground clearance	130mm
Curb weight	96kg

RANGE & BATTERY

Battery	Lithium battery
Capacity	74V27Ah (second battery optional)
Max range	63km (WMTC)

MOTORCYCLE CONFIGURATION

Frame	steel tube frame
Brake (f r)	220mm disc with opposed 2-piston caliper
	190mm disc with opposed 2-piston caliper
Suspensions (f r)	hydraulic twinshock, spring damper, adjustable
Tires (f r)	80/90-12 100/80-12
eTCS	standard
ABS	standard
BSD	standard

MOTOR & PERFORMANCE

Motor	hub motor
Grade ability	15°
Acceleration	0-50km/h in 8.2s
Max speed	65km/h
Rated power	1.6kW
Peak power	3kW
